# HATCHERIES AND DEALERS Participating in the NATIONAL POULTRY IMPROVEMENT PLAN

The publication of this list is for the purpose of developing greater efficiency in the operation of the National Poultry Improvement Plan. Additional information regarding these hatcheries and dealers may be obtained by writing to them, or to the Official State Agency in their respective States. Due to the fact that changes frequently occur in this list, it is suggested that anyone desiring to purchase hatching eggs or chicks from the listed hatcheries write the Official State Agency before making such purchase. Supplements to this publication, containing changes in participation, will be published periodically.

Information in this report was compiled by  
Animal Husbandry Research Division  
Agricultural Research Service

## FOREWORD

The hatcheries and dealers listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. The participants are listed alphabetically by States and according to the U. S. Pullorum-Typhoid Classification of their products.

The name and address of the Contact Representative and the Official State Agency are shown at the beginning of the list of hatcheries for each of the cooperating States.

The figures in the column immediately following the name and address of the participant show, for hatcheries, the hatching egg capacity (manufacturers rating including setting and hatching trays). For dealers, this column indicates the type of products the dealer offers for sale by the following code:

DE - Hatching Egg Dealer  
DC - Chick Dealer  
DEC - Dealer in both hatching eggs and chicks.

The letters which appear under the appropriate classification headings show the breed or variety or type of stock produced by the participant. The number used in connection with the code letter indicates the strain or trade name of the breed, variety or stock produced, except in the case of the code letters r, w, x, y and z where the numbers indicate the variety or breed. Crosses are designated by combining the code letters and numbers of the parent stocks involved with the code letter of the male indicated first. For example, a1b1 would indicate Anthony White Leghorn males mated to Anderson Rhode Island Red females.

This list should be helpful in finding the classification of the product of the hatchery or dealer from whom purchase is to be made. Information concerning the status of products of hatcheries not listed may be obtained by writing to the Contact Representative.

The code used to indicate the breed or variety or type of stock is as follows:

### a - White Leghorn

1 - Anthony	26 - Durr's Keystone	50 - 1042 Leghorn Strain Cross
2 - Arnoldi	27 - Edmonds	51 - Lincoln Hi Whites
3 - Auburn	29 - Foreman	52 - Matthews 138
74 - Avery	30 - Gasson	53 - Maxi Lay Queen
4 - Babcock Bessie	31 - Ghostley	54 - Meadowview
5 - Babcock Barbara	32 - Ghostley Pearl	55 - Mount Hope Queen
